The Principal Observes

This is an exciting time to be at Grace Academy. Whenever an organization grows, there is reason to celebrate. This is the third consecutive year we have grown from one year to the next. Growth was nice the last two years, 4% and 5%, but this year we are celebrating a 12% rise. As a result, we have very few open spots in our elementary and junior high programs. We do not measure our success by the number of students we have because that would be a fickle measure. Even so, we value the opportunity to train more students and to serve more families.

With growth come problems with space. We added a first grade class, which required us to move other classes to different rooms and shift other resources as well. None of the moves have been too painful, but they remind us to be thankful for the facilities we have. The gym

permits from the city in the next few months.

Along with the enrollment news, I am thrilled with our new bus provided by a donor. You may have noticed that the two old yellow buses are gone and have been replaced by one bus that is much newer. I am excited about the improved appearance of the bus and the visual excellence it represents for Grace Academy. It is also a much safer vehicle for our students.

Please keep praying for the school this year. We know that every blessing comes from God and we are grateful to Him. I am praying that each student grows spiritually and academically through the ministry of their teachers..
